

**REMARKS/ARGUMENTS****Objections to the Specification**

The Examiner objected to the specification and indicated that the specification was missing a Brief description of the Drawings. Applicant has amended the specification to add a Brief Description of the Drawings as suggested by the Examiner.

The Examiner objected to the term "isomerization" on page 18, line 1. Applicants have amended the term to recite "isomerized" as suggested by the Examiner.

**Rejections under 35 USC §112, second paragraph**

The Examiner rejected claim 1 as being indefinite. More specifically, the Examiner noted that the claim recited "stream" at step (c), instead of "steam". Applicant has amended the claim to recite "steam" as opposed to "stream" as correctly noted by the Examiner.

In view of the above, the rejection should be withdrawn.

**Rejections under 35 USC §102(b)**

The Examiner rejected claim 1 as being anticipated by US 3,161,670 (Adams et al.)

Applicant has amended claim 1 to include the limitations of claim 3, which comprises allowable subject matter, thereby rendering the rejection moot.

The rejection should be withdrawn.
